To complete: fill in the bracketed parts, print on your letterhead if you have one, sign, and email a photo or scan to hello@brasslanternstudios.com by Monday 26 October. It commits you to nothing until the funding is confirmed.

Letter of support: Little Wins at Home

For the Innovate UK and Department for Education assessment panel, competition “Innovation in play to improve child outcomes”

Setting: [name of childminder]

Address: [address and postcode]

I support Brass Lantern Studios Ltd’s application to run Little Wins at Home, a play programme that gives parents of two to four year olds three short play ideas a week, tied to everyday routines, with no screens for the child and no cost to families or settings.

I care for [number] children aged [ages] in my home. Many of the parents my setting works with tell us they want to play more with their children but struggle to find ideas that fit around work, tiredness and a small home. A programme that goes home with the child, in the family’s own language, would help the families we find hardest to reach.

If the project is funded, my setting is willing to:

- offer the programme to the families I care for
- introduce the play ideas to parents at pick-up and drop-off
- give feedback on which ideas work for the children I care for
- support the evaluation where parents consent

I understand the project would run from February 2027 to January 2028 and that taking part would be free. I am happy to be named as a potential delivery setting in the application.
